Golden Opal
Dinnerware set
Pleasant sense of hosting with Golden Opal.

FRENCH TECH. FRENCH TECH.

Collection 2025-26

extreme resistance

OPAL, A MULTIPLE BENEFITS MATERIAL

They resist breaking and chipping
Golden Opal is reinforced thanks to a special heat treatment called tempering, which makes it up to 3 times more shock-resistant than other materials.

Dishwasher safe
Golden Opal products retain their decoration and their shine day after day, wash after wash.

Resistant to drastic temperature changes
Golden Opal can withstand sudden variations of 135°C: it is safe to transfer the dishes directly from the refrigerator to the microwave.

100% hygiENIC
Golden Opal is a non-porous material, which prevents bacteria from accumulating in it, making it easy to clean and hygienic.

Eco Friendly

GLASS : FINE AND 100% HEALTHY
Golden Opall oves glass, a fine material that plays beautifully with light, shine, and transparency and brings a bright look to our tables. Golden Opal plates and glasses are made from the best-quality raw materials, the most beautiful sands, and we recover the broken glass from production. No waste!

The glass itself is just as ecological: the material is nonporous, whether clear, decorated, or coloured, and it doesn't trap any microorganisms that could lead to bacterial contamination. Zero bad odours, zero discolouration from food, zero trapped bacteria, 100% healthy!
